

I respectfully demand that the FCC reject the National Association of Broadcaster's petition 04-160. This petition benefits only the interests of NAB and their members (big corporate radio), not the listeners like me. I resent the notion of the NAB believing they know what's best for me, a consumer, and a service (such as XM Satellite Radio) for which I pay for. This is unacceptable. PLEASE REJECT PETITION 04-160. Thank you.
